Municipal Review

AUTHORIZED BY BOROUGH COUNCIL EDITED BY BOROUGH MANAGER

Believing that the public is entitled to full knowledge of the Borough business affairs, this Review is one of a series that will be issued every month in an effort to acquaint the citizens and taxpayers not only with the facts pertaining to municipal government, but with the problems as well

Vol. II. No. 2 SEWICKLEY, PA. May, 1927

OVER THE TOP

As is the case of all good causes in Sewickley, the Hospital Drive went over the top. The citizens of Ambridge, Coraopolis and Sewickley are to be congratulated on so generously and loyally "putting across" the campaign for a modern and up-to-the-minute Hospital for this Valley.

NEW HOSPITAL ASSURED

Citizens of the Sewickley Valley during the period of May 1 to May 16 have been asked to contribute toward a $750,000 fund for the erection of a new 130-bed hospital on the site of the present 40-bed Sewickley Valley hospital at Sewickley.

More than 500 workers under the leadership of Wilson A. Campbell, chairman, Raymond C. Suckling, secretary and Robert Trimble, treasurer have made the solicitation in Ambridge, Sewickley, Coraopolis, Baden, Leetsdale, Glen-Osborne, and other adjoining boroughs. C. Herman Grose, principal of the Ambridge Junior High school, is vice chairman of the Ambridge region, while Attorney W. Heber Dithrich,

MONTHLY HEALTH TALKS

The Empty Can May Breed Flies and Mosquitoes

The use of tin cans and glass jars for the preservation and dispensing of foods has added to the safety of our food supply and made possible a greater variety in the diet. The disposal of the empty containers, however, is sometimes a considerable problem in municipal sanitation.

One who views a pile of empty cans rusting away on the dump, or lying in the backyard, is quite apt to think of these unsightly objects as a reflection on community pride, but few people realize that these empty cans or glass jars may become a menace to the health and comfort during the summer month.

(Continued on Page 7)

PROCEEDINGS OF COUNCIL

May 10, 1927

Members present at this meeting were: Ellerton, Kuhn, Hutchinson, Miller, Bevington, Richardson, Cunningham, Rose, Burgess, Solicitor and Manager.

The report of Tax Collector Lamont for the month of April was as follows: amount of duplicates $89,965.00, collected to May 1st $87,946.99, balance to collect $2,018.01.

Tax Collector Sands reported as follows: 1925 taxes, amount uncollected $562.40; 1924 taxes, none.

It was decided to start work immediately on the improved lighting system for Beaver and Broad Street. The Borough doing the work with its own forces, at a considerable saving in cost for the underground work.

There will be 15 1000 C. P. lights on Beaver Street between Chestnut St. and Blackburn Ave. in place of the 32 250 C. P. lights as at present.

On Broad Street between Beaver and Thorn Streets will be placed 7 600 C. P. lights instead of the 100's as at present, and between Thorn and Bank Streets will be 12 400 C. P. lights, at present these are also 100 C. P. The standards used for the Beaver Street lights at this time are to be used for the lighting of Broad Street. The lighting of the streets covered by lighting standards will be increased over 250% at very little increase in cost, and making the system one of the most modern that it is possible to have.

The entire underground system will be owned by the Borough and maintained by the Duquesne Light Co.

It was decided to charge Sewickley Heights at the rate of $200.00 each for all calls answered by the Cochran Hose Co.

Mr. Miller suggested that owing to traffic congestion on Division Street between Beaver and Chestnut Streets that parking be allowed only on the easterly side of the street. If conditions are not improved an ordinance will be passed prohibiting parking on the westerly side, or possibly allowing only one-half hour parking on this block.

An Ordinance was passed two reading for the construction of a sanitary sewer on Dickson Street for a distance of 250 feet above Farren Street. This ordinance will come up for final passage Tuesday, June 14th.

Upon a petition of resident abutting on Rose Alley between Walnut and Little Streets a street light was ordered placed in this alley.

The Manager stated that it was evident from present plans that the new Passenger Station would be placed at Chestnut and Chadwick Streets and the Freight Station on the westerly side of Walnut Street, and recommended that a business and commercial zone be provided for in that section in the Zoning Ordinance.

It was decided to hold this matter over until more definite plans were prepared and presented by the railroad company for the location of their Passenger and Freight stations.

Burgess Richardson reported on the annual meeting of the League of Boroughs and Townships of Allegheny County held at the Fort Pitt Hotel Thursday, May 5th.

The most important matter being a discussion of the status and benefits of the constitutional amendment, otherwise known as the Metropolitan District Plan.

The Burgess reported most of the towns and townships heartily in favor of this plan, which is the only sure way of eliminating forcible annexation. The Manager reported that the Lock Joint Pipe Co. is busily engaged in manufacturing the 30" and 36" concrete pipe for the Beaver Street storm sewers. The pipe yard is immediately west of the Sewickley Bridge on Chadwick Street, and the plant and equipment layout of the Lock Joint Pipe Co. is sufficiently interesting to warrant a trip of inspection of citizens interested.

The work on the storm sewers will probably start the week of May 23rd, and will be rushed as rapidly as possible in order to make way for the resurfacing of Beaver Street.

The Manager further reported that in order to relieve roof water conditions which are continually causing the backing up of the sanitary sewers in the Beaver Street section, that all property owners abutting the new storm sewers be ordered to connect their roof water with the storm sewer as the work progresses so that all need for the opening of Beaver Street will be at an end with the completion of the storm sewer work. An Ordinance was ordered prepared for the connection of roof water to storm sewers where property abuts on same.

NEW HOSPITAL

(Continued from Page 1)

Allegheny county solicitor, is chairman of the Coraopolis region. F. R. Dravo is chairman of the industrial gifts committee and George H. Clapp, chairman of the special gifts committee.

Members of the executive committee are: George H. Clapp, William L. Clause, W. Heber Dithrich, F. R. Dravo, C. Herman Grose, Mrs. W. W. Hull, C. Roy Kerr, J. Vincent Lewis, R. G. Manning, B. Scott McFarland, Mrs. C. S. McGeorge, E. Dexter Pool, Mrs W. M. Scaife, Horace J. Thomas, Jr., Robert Wardrop, Mrs. H. W. Wickenhiser, Mrs. Frank Scott Willock, Walter J. Wilson, Gifford K. Wright and Mrs. O. J. Zimmerman.

The new hospital proposed for the upper Ohio Valley is to be a large modern general hospital capable of meeting all the needs of these communities. It will face Hopkins street at Locust Place and is within fifteen minutes by ambulance from any home or industrial plant in the district.

Reports by hospital experts and State authorities all recommend one large group hospital here rather than several small ones, because small hospitals cannot afford the type of equipment and treatment needed today and because small hospitals usually cost too much in running expenses.

In the new hospital, which will be modernly equipped will have greater bed capacity, three operating rooms, separate children's quarters, isolation wards for contagious diseases, segregation of patients suffering from different ailments; modern laboratory facilities; a dental chair; expanded pharmacy; private rooms and maternity department. And many other facilities essential to the successful operation of modern hospitals and treatment of present-day injuries and diseases.

The situation has been under intensive study for two years. Dr. S. S. Goldwater, hospital consultant from New York, was brought on for a thorough survey. Several other experts who also studied conditions all recommended such a hospital plan as is now proposed.

The present hospital building will be utilized for a nurses' home and training school.

American Legion Band Concerts This Summer

The following dates have been selected by the American Legion Post 4 Band for Concerts to be given in Sewickley at the Municipal Building during the summer months:

May 30, afternoon and evening.
June 24th.
July 15th
August 26th.

Show your appreciation by attending these concerts, and encourage the American Legion in their efforts to give Sewickley what she so badly needs during the summer months.

HAROLD L. LANG,
Bacteriologist,
Sewickley Board of Health.

A fool there was and he made his prayer
To a high-priced car and a maiden fair—
Even as you and I.
He neglected his calling to run his car
And he drove the maiden both near and far—
Even as you and I.
He'd cross all railroad tracks on high
While hugging the maiden with many a sigh—
Even as you and I.
He did not heed the whistle and bell
Now he and the maiden are both in—
(Well, let us hope, Paradise)—
Even as you and I—hope to be.

Norman's Teacher—"Norman, give me a sentence using the word 'diadem'."

Norman—"People who drive on rail road crossings without looking diadem sight quicker than those who Stop, Look and Listen."

Metropolitan District Plan

We have been requested to reprint the constitutional amendment with explanatory remarks prepared by the League of Boroughs and Townships.

A careful reading of the Metropolitan District Plan will repay every citizen for the time it requires, as it is a vital question, and in order to vote on it intelligently when it comes before the voters in 1928 for approval, thorough study should be made of its contents.

A copy of the amendment follows:

A JOINT RESOLUTION

Proposing an amendment to article fifteen of the Constitution of the Commonwealth of Pennsylvania, by adding thereto a new section to be known as section four thereof.

Section 1. Be it resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, That the following amendment to the Constitution of Pennsylvania be and the same is hereby proposed in accordance with the eighteenth article thereof.

Section 4. The General Assembly is hereby authorized to provide for the consolidation of the county, poor districts, cities, boroughs and townships of the County of Allegheny and the offices thereof into a consolidated city and county, with the constitutional and legal capacity of a municipal corporation to be known as the City of Pittsburgh, and to provide a charter for its government.

This makes possible the consolidation of the county, and poor districts into a municipal corporation that can carry out the functions of the county and poor districts and it gives the Legislature the power to create a consolidated city and county government within Allegheny County. All duplications between functions of the county and the new proposed municipality can be removed. One legislative body and one set of financial and other executive and administrative officers can serve for both county and city purposes.

The said charter shall be submitted to the electors of said county at a special election, to be provided for therein. If the majority of the electors voting thereon in the county as a whole, and a majority of the electors voting thereon in each of at least two-thirds of all the cities, boroughs and townships thereof vote in the affirmative, the act shall take effect for the whole county.

This provides for a vote of the people on the charter and is for the special protection of the numerous communities so that they shall not be overwhelmed by the vote of the City of Pittsburgh. There are 126 municipalities in the county and this means that not only must the voters of the county as a whole approve the measure but also the electors in at least 84 of the units must do likewise . This gives the Boroughs and Townships such an overwhelming preponderance in determining results that there is no chance of it being said that it amounts to forcible annexation, of the units not so agreeing. It is based on the principle of majority rule, first a majority of the people and second more than a majority of the communities, and, when accomplished, it will be done in such a manner that the rights and privileges of the component parts voting against it shall still be protected as to local matters.

If rejected, the charter may be resubmitted to the electors in original, new or modified form at any supsequent election until adopted.

This provides that, if the first charter is not successful, a redrafted charter, with the points in disagreement eliminated or compromised upon, may be submitted to the vote of the people.

It shall be competent, subject to the police power of the State, for the Legislature to provide in said charter:

1. For the exercise by the Consolidated City of all the powers and duties vested in the County of Allegheny and the poor districts thereof, and such other powers appropriate to a municipality as may be specified therein, except such powers as are specifically reserved by this section to the municipal divisions herein provided for.

The specific reservations are that such powers as may be granted shall not trespass or trench upon those other powers which are reserved to the evisting units of the county of the city, borough and township type, as are later provided and expressed in the aemendment. It is the purpose that full opportunity be given the greater municipality in the exercise of its functions and yet that the smaller component

parts shall have reserved to them powers they desire and need for their own local use and development.

2. For the election by the people of the Consolidated City of a board of commissioners, the number to be fixed by the charter, in lieu of present county commissioners, in which board shall be vested all the powers of the Consolidated City and county, except as otherwise provided in the charter.

3. For the organization of a government for the Consolidated City and county and for the election or appointment of the constitutional and other necessary officers thereof, and for their powers and duties.

Under these two clauses it will be possible to frame an advanced, modern, completely developed, fully organized form of government for the Metropolitan Area and city and to secure economy, efficiency and thrift not now possible by reason of limitations resting on ancient and traditional method of operation.

4. For the organization of all courts other than those of record in the Consolidated City, and for the procedure thereof, and for the appointment of judges and officers thereof, which courts shall exercise the jurisdiction, powers and duties of the magistrates, aldermen and justices of the peace and such other powers as may be conferred by law.

The purpose of this is to give the Legislature power to provide in the charter for a real modern system of courts of minor, civil and criminal jurisdiction and to allow it to remove the worst abuses of the present day in the conduct of minor courts under antiquated forms of procedure, permitting magistrates, justices of the peace and aldermen to function, who are not learned in the law, and who have often applied prejudiced and partial, if not positively corrupt "justice" to the small affairs of those whose means do not allow them to have their interest protected. To many of these people affairs which would be of very small matter to some, are of the utmost importance. It is a known fact there can be nothing which will do more to promote bolshevism, radicalism of all kinds and disrespect for government than injustice, especially among the poor.

(To be continued in June issue.)

Practice "Safety"

You're enjoying good health,
that's Pleasant.
You want to remain so,
that's Possible.
You may be careless,
that's Natural.
You may have an accident,
that's Probable.
You sincerely hope not,
that's Evident.
Then practice "Safety,"
that's Wisdom.

COMPILES LIST OF MOTOR LAWS

Gasoline Tax Increase Causes Comment

Pennsylvania Motor federation has compiled a list of laws created by the 1927 legislature, relating to roads in Pennsylvania, the registration and operation of motor vehicles, and the licensing of motor vehicle operators.

The most important bill signed by the governor was that codifying all laws relating to the operation of motor vehicles and the registration of operators known as the motor code. Another important measure was that adding approximately 1,400 miles to the state highway system.

The legislature passed a resolution providing for an amendment to the constitution enabling the commonwealth to issue an additional fifty million dollars of road bonds. This proposition must be approved by the voters in the fall of 1928.

Perhaps the bill which caused the greatest comment was that increasing the gasoline tax from two to three cents. Two of these measures were passed finally and both were signed by the governor. The first re-enacts the provisions of the act of 1925, increasing the tax to three cents. The second brings all consumers into taxation and provides for the registration of all dealers.

Among other laws enacted are:

Appropriating $150,000 from the motor license fund for the rebuilding of county bridges destroyed by flood, these bridges to be on state highways.

Authorizing county commissioners of two counties to join in placing lights on county bridges.

Appropriating $250,000 from the motor license fund to the puble service commission for the payment of the commonwealth's share of the cost of grade crossing elimination.

Prohibiting the stopping of motor vehicles by officers or other persons for the purpose of selling tickets, or other form of solicitation.

Relating to the establishment as state highways of roads opened by order of the public service commission.

Providing that counties shall pay the cost of the removal of certain structures located within the lines of a relocated state highway.

Providing that the secretary of highways may close and abandon vacated portions of state highways, following relocations less than half a mile in length.

Permitting the secretary of highways to make to road contractors payments in excess of 90 per cent of the work done or of the contract price has been completed.

Extending the period in which the state highway department may go upon private property for the purpose of erecting snow fence.

Authorizing the secretary of highways to join two or more state highway routes by the construction of connecting roads not more than one mile in length.

Authorizing the cities of Pennsylvania to acquire parkways and playgrounds.

Authorizing the construction of state-aid highways through and joining boroughs or incorporated towns.

Prohibiting the sale of liquid fuels under false or fictitious names.

Anything to build everything.

Authorizing the department of highways to plant grasses shrubs and vines along state highways.

Authorizing the secretary of highways to designate state highways by letter or by name.

Providing that monies received by the department of highways from the sale of maps, blue prints, or certified copies of the records shall be credited to the motor license fund.

Forbidding fraud in the rental of motor vehicles.

Providing that highways abandoned as state highway routes revert for maintenance to the parties originally responsible.

Providing that counties may charge tolls on acquired or constructed toll bridges.

Appropriating $40,000 for the construction of certain county bridges.

Empowering the department of highways to acquire certain toll briges.

Appropriating $4.000.000 for township reward, $5,000,000 for state-aid and $500,000 for roads in counties of the first class.

Appropriating $1,450,012.58 to meet deficiencies in the state bond road sinking fund.

Vigilance Committee Formed

The Council and Police Committee have unanimously approved organization of a Vigilance Committee as proposed by the Kiwanis Club of Sewickley.

The purpose of this Vigilance Committee is to aid the local police in emergencies by having at instant call 16 men in the different sections of the town prepared to aid the police at all hours of the day or night.

A number of towns have organized Vigilance Committees who are doing excellent work. The moral effect of letting it be known that Sewickley has a Vigilance Committee will cause the suspicious person to give Sewickley a wide berth in the future.

Dog Quarantine

Unless conditions are greatly improved in the near future a State Quarantine on Dogs in Sewickley and vicinity will be put in force.

Few people seem to realize the seriousness of this matter, and with five or six dogs in this neighborhood having become infected with rabies within the past few months, some more stringent methods must be used.

This Mad Dog Scare has occurred during the winter months, and with hot weather coming on there should be no let up in keeping all dogs off the streets or running at large, as this is the season of the year when rabies have been most prevalent.

We are appealing to the citizens of Sewickley to use every means at their command to prevent this terrible scourge from spreading further by keeping their dogs under control at all times.

The dogs that have already become infected have all been Pittsburgh dogs, who, after having become infected immediately start running, biting at every person or dog in their path. You or your dog may be in the path of one of these Mad Dogs, and the cooperation of every dog owner must be had to fully protect everyone in the community.

Editorial Spotlight
The Power of Publicity

No more striking illustration of the power of advertising and publicity can be cited than the telephone company. Here is a business which the individual who boasts about his "conservative business judgment" would say had nothing to advertise, "if anybody wants telephone service, they know where to get it."

The telephone company has demonstrated the fallacy of such an opinion. Largely as a result of consistently advertising in the American press over a long period of years, it has popularized telephone service in the United States as in no other nation in the world. The people would never use the telephone like they do today, if they had not been continuously "sold" to the telephone idea.

There are narrow minded individuals who claim that the cost of publicity is not a legitimate expense of public service corporations. Publicity which encourages the widest use of an article is the most potent influence to reduce the expense of that article to the consuming public. With publicity, the demand for an article becomes universal and the cost of production drops to a minimum.

That is why Americans enjoy the best public utility service in the world—such companies are consistent users of advertising space. The telephone has proved this fact beyond question of a doubt.

From The Daily Republican, Monongahelia, Pa.

THE INNOCENT BYSTANDER

Lawyer—"Tell how the accident occurred."

Witness—"Well, the car shot out of a garage, exceeding the speed limit, and knocked the fellow flat on his back and ran over him. The fellow was slightly intoxicated, stepped in front of the car, which was going at the rate of ten miles an hour, was softly brushed aside and—"

"What! How could it happen both ways?"

"Don't ask me. I'm just telling both sides of it."—Life.

'Nuf' Said

Auto Tourist—"I clearly had the right of way when this man ran into me and yet you say I was to blame."

Local Cop—"You certainly were."

Autoist—"Why?"

Local Cop—"Because his father is mayor, his brother is chief of police, and I go with his sister."

A PEDESTRIAN'S PLAINT

Motor accidents increase,
State statistics all deplore,
And one may not walk in peace
Any more.

—Oklahoma City Times.

HEALTH TALKS

(Continued from Page 1)

How, someone asks, can they endanger the health?

An empty tin can or glass jar collects and holds rainwater. During the summer months mosquitoes seek stagnant water in which to lay their eggs. A teaspoonful of water is sufficient for this purpose, and a barrel of empty tin cans may hold enough rainwater from summer showers to hatch out millions of mosquito eggs. The "wigglers", as the larvae of the mosquitoes are called, may often be seen floating on the water in a can in the trash barrel, or on the dump.

How may cans be disposed of so that they will not offer a breeding place for mosquitoes? Once each month in Sewickley they are collected and buried where they can be of no further nuisance. Between collections they should be kept by the householder in such a manner that they cannot collect rainwater. This may be accomplished as follows: The cans should be stored in a tightly covered metal ash can . If they are kept in an open barrel or box each can or glass jar should be carefully placed in the barrel with the open end turned down so that they will not collect water.

Before they are discarded, cans or jars should be rinsed out thoroughly to remove food which adheres to the side. Food remaining in the containers decomposes and causes objectionable odors, and it attracts flies, roaches, rats and mice and these spread disease. If the empty cans and jars are stored in a tightly covered metal can as recommended above this will all be prevented.

The Board of Health of Sewickley asks your co-operation in taking proper care of all empty cans, glass containers and and bottles until they can be collected and hauled away for burial.

Keep them in a tightly covered barrel if possible, but in any event store them in such a way that they will not collect rainwater or attract rats and mice or flies. The dumping of cans or other rubbish on vacant lots, alleys or streets is prohibited by the Borough ordinances.

Board of Health, Borough of Sewickley,
HAROLD L. LANG,
Secretary.
