

**MINUTES OF THE SHADE TREE COMMISSION  
OF THE BOROUGH OF SEWICKLEY  
July 19, 2021**

The Shade Tree Commission (STC) convened on July 19th, 2021 via a recorded Zoom Meeting. The meeting was called to order by Chairperson Kathy Brandt at 6:30 p.m.

In attendance were:

**Members**

Kathy Brandt, Chairperson  
Brian Finley, Vice Chairperson  
Andrew Frishkorn, Secretary  
Katie Kirsch, GIS Manager (arrived ~6:50)  
Dave Parker, Treasurer

**Of Council**

Cynthia Mullins - Council Representative

**Arborist**

None

**Visitors**

None

**I. APPROVAL OF MINUTES**

Dave Parker made a motion to approve the June minutes which was seconded by Kathy Brandt and also approved by Andrew Frishkorn . Brian Finley and Katie Kirsch abstained since they were not at the previous meeting.

**II. STAFFING UPDATES**

Options concerning identification of a new Arborist were discussed. Kathy spoke with a representative from Tree Pittsburgh (Danielle Crumrine) concerning our need of an arborist. Tree Pittsburgh is going to put her in touch with the Penn State regional arborist (Brian) for this part of the state. Danielle and others in the organization think that “Brian” would not only bring the respect of his institution but resources of their labs. As an exterior forester he would have different goals to work with us.

Also, Danielle mentioned a member of the board of Tree Pittsburgh is a man well versed in municipal canopy and reading diverse data. He might at some future date be able to meet or phone those who are able to discuss how he could assist us with our mission. Dave Parker indicated that he was going to try to find out who Edgeworth is using for their arborist. Subsequently, Kathy Brandt determined that the Edgeworth Arborist is Robert Crusan. Nate Briggs, Borough Manager (and Arborist) from Sewickley Heights, is going to contact Kathy Brandt about possible arborist candidates.

The group felt that the proposed rate from Andrew Tomakovic was high (by about 50%) compared to the previous arborist. The group felt that Andrew Tomakovic should be requested to reduce his hourly rate and provide his resume. Kathy Brandt was going to call him and discuss his rate, the scope of work and his interested in serving for perhaps three months on an interim basis, with an expectation that his hours would not exceed 10 hours per month. On motion by Dave Parker and seconded by Andrew Frishkorn, the STC unanimously agreed to hire Andrew Tomakovic on a temporary basis to handle

application reviews and other safety related inspections, such as those identified on Little Street. In the meantime, we will consider options for a permanent arborist.

Ms. Mullins indicated that we could hire an arborist on an interim basis without the need for approval by the Borough Council. The arborist should prepare invoices on a monthly basis. Fran is the person in the Borough who pays invoices.

Andrew Frishkorn prepared a draft scope of work for the future arborist:

**Arborist Scope of Work  
Shade Tree Commission (STC)**

- (1) Review Citizen and Borough Applications for Removals and Maintenance. Determine if applications should be approved or rejected in part or in whole. Make alternate recommendations when appropriate.
- (2) Interface with Borough Maintenance and/or Property Owners with respect applications, as needed.
- (3) Prepare the monthly arborist report on the Friday prior to the monthly STC meeting with recommendations concerning applications. Recommend maintenance, removals and plantings.
- (4) Assist with updates to the tree activity list to identify new or completed work.
- (5) Attend monthly STC meeting to review arborist report with STC.
- (6) Inspect trees in Sewickley to identify trees for removal or maintenance that may pose a hazard to the public, infrastructure, or other structures. Make recommendations for routine and/or emergency maintenance and removals. Provide recommendations to the STC in the November and July each year and/or more frequently, if needed.
- (7) Order and install new tree tags once per year. Communicate locations of newly tagged trees with STC and/or database manager
- (8) Provide recommendations for the spring (April) and fall (October) tree plantings. Provide recommendations and associated budget for plantings five months prior to planting (December and May).
- (9) Develop bid documents for removals, maintenance and plantings. Solicit bids for work. Obtain minimum of three bids for contract values that are anticipated to exceed \$11,300. Prepare advertisements when anticipated cost will exceed \$21,600. Evaluate Bids. Coordinate with Borough Manager and or Borough Maintenance when needed. Coordinate work with successful bidder. Inspect completed work and determine if contractor invoice should be approved for payment.
- (10) Prepare monthly invoices

**III. OLD BUSINESS AND TREE ACTIVITY SHEET**

The updated tree activity list is provided as Attachment A.

Luke Hotchkiss sent Kathy a form to sign so that his Eagle Scout project can move forward. He first had to obtain and provide input for the Scoutmasters. Luke is at camp until the end of July. We will be hearing from him as he starts his work.

#### IV. NEW BUSINESS

Two new applications were submitted:

- (1) 302 Little Street –Owner is concern about falling limbs from London Planetrees. Children play under the trees. Trees appear to be sick. Request for tree maintenance/removal of dead limbs. Application approved. Trees need to be inspected by an Arborist to determine if any of the trees should be removed and to diagnose the reason that the trees are not leafing out properly.
- (2) 859 Thorn Street - Application to remove crabapple in back yard. Based on the size and location, this tree does not fall within the jurisdiction of the shade tree commission. Therefore, the homeowner may proceed to remove this privately owned tree.

Dave Parker raised concerns about unauthorized paving of area between curb and sidewalk at 611 Broad Street and odd plantings at 312 Hill Street within sidewalk. This condition should be discussed with Zoning Department:

312 Hill St.

611 Broad St.

**V. CORRESPONDENCE**

Correspondence from former Arborist (Burlton Griffin):

Process for Tree Removal at 530 Academy:

We have one bid for the removal from Tall Timber. Grahams Tree Service was contacted for a bid, but they have been unresponsive. Pursuit of additional bids would be appropriate due to relatively high cost of removal. Once scheduled, Sewickley must post no parking signs (and allow temporary road closure). Duquesne Light Company (DLC) would be responsible to notify property owners about the temporary power outage. Scheduling should be coordinated with Justin Evans from DLC: [Jevans@duqlight.com](mailto:Jevans@duqlight.com).

Previously completed inspection report for Ohio River Boulevard trees will be provided to the Borough upon payment of \$2000 to the former arborist. This work was out of the normal scope of work for the arborist and was in response to an emergency failure of a large tree earlier in the year.

Diane Vierling provided e-mail addresses to the STC for the Sewickley licensed tree specialists to allow for Requests for Quotations (RFQs) to be sent to licensed tree experts, while the STC has no arborist on staff.

**VI. BUDGET**

The current budget status is provided as Attachment C. The budget process for 2022 will be starting soon. We need to develop an updated invoice to cover increased funding for an arborist and increased costs for planting, which is now outsourced instead of being supported by Borough Maintenance.

Franco Verbene will review the invoice from Sylvan Garden’s invoice for recent work, since we have no arborist to verify that the work listed on the invoice was completed.

Several maintenance/pruning recommendations identified by the previous arborist need action. The previous arborist was requested to provide a bid for the pruning work from Bartlett Tree Service. Andrew Frishkorn recommended that a survey quality GPS unit for tracking tree data be acquired in 2021 if funding remains available in November 2021.

**VII. ADMINISTRATIVE**

Some issues discussed to date that need further clarification in the STC ordinance include:

**OLD**

- (1) Clarified language about tree ownership between the sidewalk and curb
- (2) Clarified language about responsibility for tree maintenance in Borough Parks
- (3) Hazard zone definition (distance to right-of-way, power lines and/or to neighboring structures)
- (4) Authority to order removal of dead or dying trees on private property for trees that pose an obvious and imminent danger, as identified by the Borough arborist

- (5) Clear policy related to sidewalk heave related to borough owned tree roots
- (6) How to manage donations for special projects
- (7) Develop standard procedure for Borough and/or Zoning officer communication with STC related to Borough Trees and/or private tree to be removed within the hazard zone identified during building permit applications.
- (8) Develop a policy concerning costs recovery for damages to Borough Trees by vehicles, etc.
- (9) A roll-call vote is required going forward, while voting via Zoom meetings
- (10) Zoom meetings will be recorded and will remain on-line until the recording can be replaced by the approved meeting minutes.
- (11) Add information to the STC website or to the application for residents who desire a tree be planted in an open space near their home.
- (12) Consider review of example ordinances available via Tree Pittsburgh when the ordinance is updated.
- (13) The ordinance (Section 267-9) needs to be considered for modification. The STC would like to consider removing the requirement for multiple advertisements and council approval of in-budget non-emergency tree plantings and removals, because this requirement can have an adverse impact to scheduling STC approved work (adding up to 2 months to the decision process) for expenditures that are less than or equal to the previously approved STC budget. The requirement for written notices to the adjacent property owners would be retained.

**NEW**

None

**VIII. ACTION ITEMS:**

**OLD**

- Determine responsibility for approval of pruning requests in Borough Parks (TBD)
- Plaque Inventory (Luke Hotchkiss – Eagle Scout Project)
- Develop Informational Post Card using advertising budget to request residents avoid use of lawn herbicides around trees. (Brandt/Mullins)
- Mulch party needs arranged for many trees in the Borough to protect them from mowers and herbicides (TBD)
- 816 Hill Street - Need Code enforcement to tell them they need to remove the tree. We will send a letter telling them to go to code enforcement. (Brandt)
- Review the GIS dashboard that Kirsch sent around (all).
- Check with construction team about the unauthorized removals of Ginkgos (Parker).
- Hire new Arborist (STC)

**NEW**

- Solicit additional bids for work at 530 Academy (Frishkorn)
- Solicit Bids for identified maintenance work. (TBD)

- Maintenance items on Linden (Brandt to coordinate with Franco Verbene)
- Purchase of GPS unit for Borough for tracking trees (and other infrastructure) if funds available in November 2021 (Kirsch)

**IX. ADJOURNMENT:** There being no other business before the STC, on motion from Andrew Frishkorn and seconded by Dave Parker and unanimously approved, Chairperson Kathy Brandt adjourned the meeting at approximately 7:45 p.m.

**NEXT MEETING:** The majority of STC member (Brian, Dave and Andy) prefer returning the meeting time to 7:00 pm. Kathy did not indicate a preference. Katie prefers 6:30 but is OK with 7:00 if meetings do not exceed 1 hour. The meeting date will remain the 3<sup>rd</sup> Monday of the month to allow time for residents to appeal decisions prior to the next Council Meeting. Therefore, the next meeting will be held August 16, 2021, at 7:00 p.m. via Zoom. ID: 834 1640 5019; Passcode: STC

*Respectfully Submitted, Andrew Frishkorn (STC Secretary)*
